International Congress on Logistics and SCM Systems

ICLS *Taiwan 2006*

Globalization and Localization on SCM

*May 1 ~ 2, 2006
Kaohsiung, Taiwan*

CALL FOR PAPERS

For updates: www.logistics.nkfust.edu.tw/ICLS2006

National Kaohsiung First University of
Science and Technology

WELCOME

The International Congress on Logistics and SCM Systems (ICLS) is an annual conference that brings together logistics and management professionals and academics from all over the world. ICLS was first initiated by The Asia Federation of Logistics & SCM Systems and jointly hosted in turn by The University of Tokyo and Waseda University in Tokyo, Japan in November 2004.

We encourage attendance from logisticians, managers, business consultants, as well as academics and researchers. ICLS is a forum for the exchange of ideas, experience, theories and knowledge between all persons involved in logistics and supply chain management. The 2006 ICLS is in turn organized by the National Kaohsiung First University of Science & Technology in Kaohsiung, Taiwan. It is our hope that at 2006 ICLS we provide a broad and strategic look at supply chain management in today's world. We hope you will join us.

SIGNATURES FROM CHAIRS

National Kaohsiung First University of
Science and Technology

PROGRAM

The theme for the congress is "**Globalization and Localization on SCM**". Papers written in English will be considered on all aspects of Logistics and SCM. Complete program and suggested topics at www.nkfust.edu.tw/ICLS2006
